### **REMARKS/ARGUMENTS**

The Applicant thanks the Examiner for the Office Action dated October 29, 2005.

#### **Election/Restrictions**

In response to the election requirement, the Applicant elects Embodiment 2 described in Figures 17-21 as a single disclosed species.

The claims readable onto this embodiment are Claims 1-7, 13-19 and 25-32 (now renumbered claims 25-31). Claims 8-12, 20-24 and 33-37 are hereby withdrawn from consideration.

The Applicant has amended a typographical error: claim 27 should have been numbered claim 26. Therefore, claims 27 to 32 have been renumbered claims 26 to 31, including claim dependencies. The Applicant submits that this amendment introduces no new matter.

The Applicant submits that all embodiments of the invention fall within the scope of generic claims 1 and 25. The common inventive feature of these claims (and all embodiments described in the specification) is the chamber being at least partially formed by an amorphous ceramic material.

The Applicant reserves the right to a rejoinder should the Examiner find any of the generic claims allowable.

Very respectfully,

Applicant:
